Center for Emergency Situations and Disaster Risk Reduction

The Centre was established and has been operating since 14 September 2016

CENTER STATUSES (official and delegated):

- A permanently operating intergovernmental body – an international organization;
- Secretariat of the Regional Forum – Meeting of the Heads of Emergency Authorities of Central Asian countries;
- Regional Resource Center for monitoring the implementation of the Sendai Framework for Disaster Risk Reduction 2015–2030 in the CA region;
- Affiliate member of the International Civil Defence Organization (ICDO).

MAIN REGIONAL INITIATIVES OF THE CENTER:

1. Establishment of a Regional Coordination Center for Emergency Situations in Central Asian countries to coordinate and technically support humanitarian operations based at the Center;

2. Development of a Digital Atlas of Transboundary Hazards in Central Asian countries;

3. Establishment of a Regional Early Warning and Mutual Information System on threats and occurrence of emergencies.

In 2018, the Center was granted the status of Secretariat for the Regional Forum—a meeting of the heads of emergency agencies from Central Asian countries, in total 9 meetings of the Regional Forum have been held.

REGIONAL FORUM-MEETING OF THE HEADS OF EMERGENCY AGENCIES OF CENTRAL ASIAN COUNTRIES
(October 20, 2026, Tashkent, Republic of Uzbekistan)

ПРОТОКОЛ
РЕГИОНАЛЬНОГО ФОРУМА –
СОВЕЩАНИЯ ГЛАВ ЧРЕЗВЫЧАЙНЫХ ВЕДОМСТВ СТРАН ЦЕНТРАЛЬНОЙ АЗИИ

20 октября 2026 года *г. Ташкент, Республика Узбекистан*

Мы, главы делегаций чрезвычайных ведомств Республики Казахстан, Кыргызской Республики, Республики Таджикистан, Туркменистана, Республики Узбекистан – участников Регионального Форума – Совещания глав чрезвычайных ведомств стран Центральной Азии,

учитывая, что население и территории государств Центральной Азии, как и во всем мире, сталкиваются с серьезными проблемами усиления подверженности и уязвимости к рискам бедствий природного, техногенного, экологического и климатического характера вследствие увеличения масштабов антропогенного воздействия на окружающую среду, возникновения новых вызовов и факторов риска, препятствующих устойчивому развитию,

признавая во внимание возможность минимизации чрезвычайных ситуаций крупномасштабного и трансграничного характера, последствия которых не всегда могут быть ликвидированы силами и средствами одной страны,

сознавая важность развития и укрепления регионального взаимодействия, международного сотрудничества и глобального партнерства, объединения усилий, принятия совместных скоординированных действий в области снижения риска бедствий, адаптации к изменению климата, предотвращения и ликвидации чрезвычайных ситуаций,

Правительству Японии, Программе развития ООН (UNDP), Германскому обществу по международному сотрудничеству (GIZ), Международной федерации обществ Красного Креста и Красного Полумесяца (IFRC), Всемирному Банку (WB), Региональному экологическому центру Центральной Азии (CAREC), Управлению ООН по снижению риска бедствий (UNDRR) за экспертную, техническую и финансовую поддержку при подготовке и проведении Регионального Форума – Совещания глав чрезвычайных ведомств стран Центральной Азии.

За Министерство по чрезвычайным ситуациям Республики Казахстан

За Министерство чрезвычайных ситуаций Кыргызской Республики

За Комитет по чрезвычайным ситуациям и гражданской обороне при Правительстве Республики Таджикистан

За Министерство обороны Туркменистана

За Министерство по чрезвычайным ситуациям Республики Узбекистан

OUTCOMES OF THE REGIONAL FORUM – MEETING OF THE HEADS OF EMERGENCY AUTHORITIES OF CENTRAL ASIAN COUNTRIES:

- **A Regional Concept for Enhancing the Resilience of Cities in Central Asian Countries to Disaster Risks and Climate Change up to 2030 has been approved, including a roadmap for its implementation for 2027–2028.**
- **A Regional Roadmap for Mitigating the Impacts of Transboundary Mudflows and Floods has been approved, including an investment plan.**
- **Proposals for Improving the Regional Mechanism for International Response to Large-Scale and Transboundary Emergencies have been approved.**
- **The Regional disaster risk (profile) of CA countries** was approved.
- **The Strategy for the development of cooperation of CA countries in Disaster Risk Reduction for 2022–2030** was approved.
- **The Regulation "On the Regional Coordination Mechanism for Emergency Situations"** was approved.
- **The Regulation on the Regional Early Warning** and mutual information system on threats and occurrence of emergencies was approved.
- **The Appeal of the heads of emergency authorities of CA countries to the UN Secretary-General** on the establishment of a Regional Early Warning and Mutual Information System on threats and occurrence of transboundary emergencies was signed.
- **The Initiative on the establishment of a Digital Atlas** of transboundary hazards of CA countries was approved, based on the example of the developing platform "Digital Safety Passport and Interactive Map – Digital Risk Atlas in the RK".

PROJECTS IMPLEMENTED BY THE CENTER AS AN IMPLEMENTING PARTNER:

From 2016 to 2025, the Center, together with emergency authorities of regional countries, international and non-governmental organizations, implemented **more than 60 programmes and projects in the field of disaster risk reduction and emergency situations:**

PROJECTS IMPLEMENTED BY THE CENTER AS AN EXECUTING PARTNER IN 2025 main (14 projects):

UNDRR – “Development of a Concept of an integrated approach to managing transboundary disaster risks taking into account climate change”.

UNICEF – “Capacity building of Emergency situations, healthcare, education, social protection, and internal affairs sectors on Core Commitments for Children in Emergency situations”.

FAO in RK – “Institutionalization of the damage and loss assessment methodology for the agricultural sector in the Republic of Kazakhstan”.

FAO in KR – “Support in digitalization of damage and loss assessment in agriculture of the Kyrgyz Republic”.

UNDP – “Improvement of the process of post-disaster damage, loss and needs assessment and recovery planning in CA”.

UNDP in KR – “Reducing risks and vulnerability from Glacial Lake Outburst Floods (GLOF) and mudflows in Kyrgyzstan through strengthening the national disaster monitoring system and community adaptive capacity”.

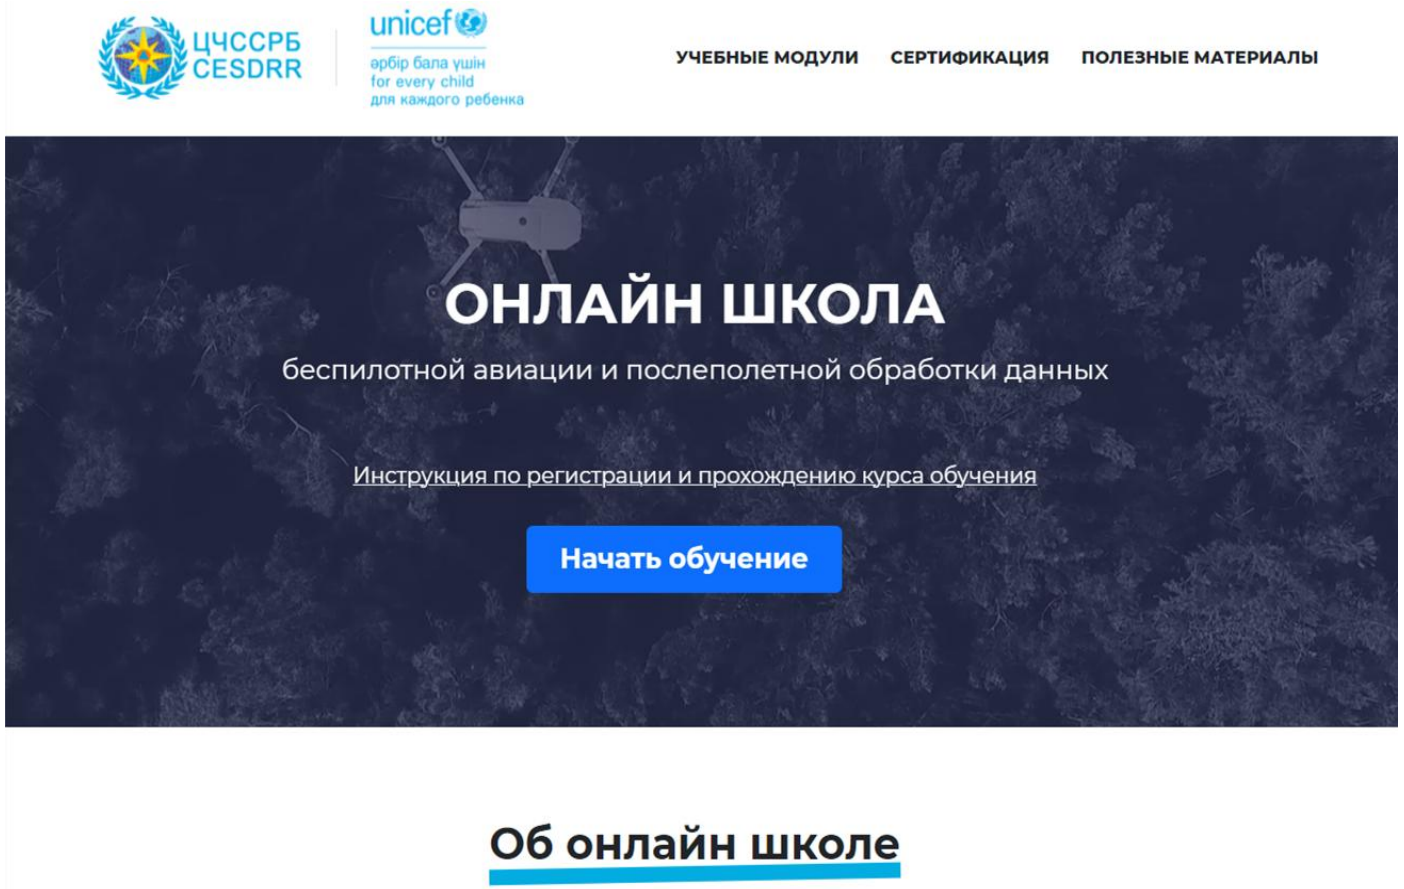

OSCE – “Strengthening the capacity of the Republic of Kazakhstan in climate change adaptation and resilience and DRR through the creation of interactive maps and digital safety passports of regions of Kazakhstan”.

GIZ – “Climate risk management in Central Asia”.

ICDO – “Strengthening the capacity of emergency authorities of Central Asian countries in the use of unmanned aviation for Emergency situations tasks”.

UNICEF – Online Unmanned Aviation School

A unique product in Central Asia has been created – the Online Unmanned Aviation School – is **the only distance tool** in the region for training specialists in the use of UAVs for civil protection tasks.

General statistics

Total started training	4128
Did not reach the threshold score	3007
Successfully passed testing	1121
Overall percentage of successfully completed training	27,15%

Number of trainees by countries

Kazakhstan / MES RK	3724 / 974
Russia	295
Uzbekistan	48
Kyrgyzstan	41
Moldova	13
